(54) Title: APPARATUS FOR CONTAINED INSPECTION AND TRANSPORTATION OF SUSPECT OBJECTS

(57) **Abstract:** Apparatus/device for the contained inspection and possible transportation of a potentially dangerous object, the apparatus including: an inspection unit (10), the inspection unit (10) able to open to receive the object and then close to provide a sealed environment for manual inspection of the object, the inspection unit (10) also including at least one glove member allowing a user external to the sealed environment of the closed inspection unit (10) to manipulate the object within the closed inspection unit (10); and, a transportation unit (80) adapted to wholly receive the inspection unit (10) and provide a further sealed environment containing the inspection unit (10) containing the object; whereby, the combination of the inspection unit (10) and the transportation unit (80) safely contain the object for possible transportation.
